New Association Outlined to Give Insurance at Cheap Rates.

MITCHEL AND WOODS IN FAVOR OF PLAN

Men Indorse Plan. First hints that there was official in-

of the department will be offset, it is believed, by added benefits. Furthermore, the new society will be financially sound, and the danger of losing a premium by failure will be removed. In the last year the Brooklyn Benevolent Association and the Mutual Aid Association went under. One of them reorganized and is doing business again.

"Unless you have a system clastic enough to cover the individual man," said the speaker, "you haven't a system that is worth a damm."

Mr. Osborne made no reply to the published statement of ex-Assemblyman Dubois, of Poughkeepise, that there is chaos at Sing Sing and that the convicts are being fed on bananas and oranges.

And then the existing societies, which there are fifteen or sixteen, prived of their excuse for exister will quietly drop out.

Cheap Insurance Planned.

Patrolman Theodore V. Hall, of the Prospect Park, Brooklyn, station, is the originator of the plan for cheap insurance for members of the uniformed force. A majority of the eleven thouforce. A majority of the eleven thou-sand men in the department favor the idea. Since January, 1914, Patrolman Hall and a committee consisting of In-spector George Wakefield. Captain Matthew McKeon, Lieutenant Charles Washburn and Sergeant Harry Lobdell have been working on the plans. The chief opposition comes from officials of the independent benevolent societies who are drawing salaries.

# The GORHAM Co. announces the beginning today of AN IMPORTANT SALE OF

STERLING SILVERWARE such as may never occur again

It involves the distribution of Gorham Silverware exclusively, at reductions of 25% to 60%

It is one of the fine traditions of The Gorham Co. that the stability of its values neither requires nor permits of special sales. But the circumstances surrounding this particular event are such as to render this sale more a matter of convenience than choice. We are making Providence, instead of New York, our wholesale distribution center, and rather than move our stock by rail, we have concluded to move it by reductions. And since this is the only sale of its kind in the 83 years of our existence, we have made the reductions commensurate with the rarity of the occasion.
